[Special to the Herald by the Associated Press.

SAN FRANCISCO, January 4.—At a meeting of the directors of the Grape Growers' and Wine Makers' Association to-day it was decided to call a general meeting of the wine makers of the State, to begin March 1st, in this city, and continue four days. The following resolution was adopted.

That we do respectfully request the Legislature of the State of California, to provide by law, for the making of chattel mortgages upon wine and brandy, and the cooperage in which it is contained. Immediately after the directors adjourned the Association was called to order and the above resolution endorsed. A NEW CABLE.

Vancouver and Australia to be Connected.

CHICAGO, January 4.—A *Times'* Ottawa, Ont., special says: A company of Canadian and English capitalists lately formed for the purpose of constructing a line of cable between Vancouver in British Columbia and Australia, is vigorously pushing on the work. Sanford Fleming, the original promoter of the scheme, says the company has been thoroughly organized and is now ready to proceed with negotiations to begin work. The company has applied to the Imperial government for vessels to conduct soundings and other work from the coast of Australia and the matter is now under the consideration of the government. Fleming thinks there will be no difficulty in getting the Imperial government either to conduct the preliminary soundings or supply vessels necessary for the work. Most encouraging offers of assistance in the way of subsidies have been received from all the government with whose territory it is proposed to make connection and the matter has at last been placed beyond the possibility of failure.

DASTARDLY DEED.

Attempt to Blow Up a House at Tombstone.

TOMBSTONE, January 4.—An attempt was made this afternoon to blow up the residence of J. S. Clark with giant powder or dynamite. The explosive was concealed in a stove and when a fire was lighted the explosion took place, shattering the stove to atoms. Mrs. Clark was severely if not fatally wounded. She was struck by a piece of iron and her skull fractured. Several parties have been arrested on suspicion.

Two Boys Arrested.

CHICO, January 4.—Yesterday Officer Finn, of Marysville, arrested a young man named Fred Raymond, on suspicion of having been implicated in a series of burglaries and stage robberies committed in Northern California recently. Last evening the same officer took into custody a young man named Al Carleton. The parents of the young men reside in Chico. A freight car was recently robbed at Marysville and afterwards stopped, and then a number of burglaries took place. The authorities think they have strong proof against the prisoners. The men each are about 19 years of age.

Major Beck Drowned.

SAN FRANCISCO, January 4.—The body of Major Robert Beck, who disappeared December 23d, was found floating in the bay this morning. For some days before his disappearance Major Beck was noticed to be acting strangely. He had been a sufferer for years from rheumatism and neuralgia, and it is supposed that, rendered insane by his troubles, he wandered away and was drowned.

SACRAMENTO, January 4.—The sentence of Victor Franco, of 14 years, for rape, was commuted by Governor Stoneman to-day to seven years. Franco was convicted at Los Angeles in January, 1882. The commutation is recommended by the prison directors, who represent that his offense was not rape and did not deserve such a heavy punishment.

The Grain Market.

SAN FRANCISCO, January 4.—The grain market is still excited. Buyer season in wheat, which closed yesterday at $1.68¾, opened this morning at $1.67½. It closed at $1.67½. Vrooman asked Langford, amid much merriment, whether there was any provision in the rules for a committee such as he had mentioned, by whom it had been appointed, and what ground there was for adjourning to await its action. Langford agreed to answer Vrooman's questions after adjournment, and the Senate adjourned.

THE ASSEMBLY.

Smurr, first assistant general freight agent at the Fourth and Townsend streets office, with the title of assistant general freight agent for Southern California. He will have supervision of all business originating south of Mojave and Santa Barbara. The intention of the company is to have an agent at this point to deal directly with shippers there.

A Tragedy at Sea.

SAN FRANCISCO, January 4.—The big ship John McLeod has just arrived at this port. Details of a tragedy which occurred on board the vessel during her passage are learned. The vessel left St. John, N. B., February 14th, last year. On the morning of March 10th, the second mate, named Atkinson, who, it is alleged, is of a violent temper, beat a Greek sailor named Antonio. The same night Antonio stabbed Atkinson in the abdomen. The Greek hid himself, and the next morning was discovered aloft on the fore-top gallant cross tree. He was ordered down, but failed to obey. Captain Stuart knowing that Antonio was armed, and fearing danger from him, distributed firearms among the crew. Seventy-five shots were fired at him and he returned about forty. Finally he was killed. The body was thrown overboard. At the same time Atkinson died. When the vessel reached Shanghai, where she was bound, an examination was held and the Captain exonerated from all blame.

The boy promptly acknowledged it and asked that his father be sent for to make it good. While waiting for his father to come, Mr. Peck having left the office, young Workins swallowed prussic acid, and in less than two minutes was dead. The boy had no bad habits and is said to have used the money in buying books and skates. His father is a resident of Bond Hill, and would readily have made good the deficit. The boy had two vials of the poison in his pocket.

A HOLACAUST.

Frightful and Fatal Railroad Collision.

A CONDUCTOR TO BLAME.

Many People Killed and Burned. Harrowing Details of the Sad Affair.

[Special to the Herald by the Associated Press.

TIFFIN, Ohio, January 4.—The fast train on the Baltimore and Ohio Railroad, at an early hour this morning, collided with an east bound freight train. Nineteen bodies have been taken from the wreck. More are injured. Three cars were burned. Physicians have gone to the scene from here. The weather is very cold, the thermometer showing three degrees below zero. The fast train was about fifty minutes late and was running at the rate of sixty miles an hour. Passing Republic, a small station, like a flash, it rushed along to a curve one mile west of town, when suddenly the engineer saw a freight train under full headway within one hundred yards of him. He at once applied the brake and reversed his engine, but it did no good, and the next instant a crash came, telescoping the coaches and piling them upon each other. To add to the consternation of the horrible scene, fire broke out in the smoking car and soon spread to the other cars. Many were killed outright, while others were wedged in among the broken cars. Slowly the cars were consumed by flames. It is impossible to give the names of the killed or wounded at this time.

One of the passengers of the ill-fated train says the engineer and fireman of the freight leaped and saved themselves before the collision. The engineer of the express had a leg broken and sustained a severe wound on the shoulder. His fireman was caught between the engine and tender and died in a few minutes. The uninjured passengers and residents of the neighborhood set to work to aid the wounded passengers in the burning cars, rescuing all who could be reached. The baggageman of the express was thrown through the roof of the car, escaping with a broken leg. The express messenger, who was sitting beside him was killed instantly. No one in the sleepers was injured in the least. Among the passengers in the sleeper were Mrs. Fish, of Joliet, Ills., sister of General Logan, and her son Charles. In the confusion of the wreck a hot dispute arose among the train men as to the responsibility for the disaster. It appeared that the frieght was running on the time of the express. The engineer was heard to remark that he had left the last siding with only thirty pounds of steam, and on the up grade east of Tiffin his engine went back on him and the train stalled. No danger signals were sent out, and the express running at full speed down grade and around the curve had no warning of the impending disaster until an instant before the collision. The total number of passengers on the wrecked train was sixty-five. Ten dead bodies have been taken out and thirteen are believed to be in the ruins. The names of the dead as far as identified are as follows: F. C. Bartley, Washington; Wm. Frederick, Washington, fireman of the express; Jos. Osterman and two sons, Martinsburg, W. Va.; Mrs. Osterman and two other children were saved. The smoker was entirely consumed and all of the passengers in it killed. All of the mail and express matter was destroyed.

The charred remains of the express messenger consisted simply of two thigh bones, which were found in the debris of the car. The engineer and fireman of the freight reversed their engine and jumped for a snow bank. The engineer of the express reversed his engine and sprang to the left, the fireman endeavored to get out to the right but being overcome with fright fell close to his crushed engine and was badly burned, but not beyond recognition. His body has been placed in a neat casket and is now at the undertakers at Republic, awaiting the arrival of his relatives.

ANOTHER ACCOUNT.

CLEVELAND, January 4.—A special dispatch to the *Leader* from Tiffin, Ohio, gives the following graphic account of the collision: One of the most horrible and heart rending accidents ever chronicled occurred near Republic, about eight miles east of here at two o'clock this morning. At one o'clock an east-bound freight train, in charge of Conductor Fletcher, pulled out of this city, having received orders to sidetrack at Scipio siding to allow the eastbound express to pass. After the passenger train had gone, the conductor being without special orders, exercised his own judgment and determined that, inasmuch as he had half an hour to make the switch at Republic, little less than five miles distant, before the arrival of the fast express from the East, due at that point at two o'clock, he pulled out. The night was bitter cold and much difficulty was experienced in keeping up steam in the engine. Finally at a point a half mile west of Republic the train came to a standstill, being unable to move further. Just here was made the horrible mistake which resulted in the loss of many lives and the destruction of thousands of dollars' worth of property. Although the conductor must have known that he was encroaching dangerously near the time of the express, he did not send out a signal until after his train had come to a standstill and he found it impossible to move further, he then started forward with a lantern himself. At this point there is a sharp curve, and conductor Fletcher had not proceeded more than the length of twenty cars when he saw the headlight of the approaching express rounding the curve not more than forty rods distance and running at the lightning speed of sixty-three miles an hour. Horror stricken with the knowledge that a frightful accident could not be avoided, he flashed his light in the face of Engineer Lem Eastman. The latter, at this same moment saw the lights of the freight engine, and giving a wild shriek of the whistle for brakes, he reversed his engine and jumped for his life, crashing through the window of the cab, carrying the glass and sash with him and alighted in a heavy snow drift. He escaped serious injury, his hurts being confined to a slight wound upon the knee. As he realized his danger he called to his fireman, William Fredericks, to save himself. The latter was engaged in stoking the fire and raised up and hesitated a moment to glance forward as if to estimate the danger. This was fatal, as at that instant the crash came and poor Fredericks was pinned and crushed by the wreck.

The effect of the collision can be better imagined than described. The engines of the two trains reared into the air like a pair of living monsters and then settled down upon the track, driving into each other until the cylinders touched. The force of the impact jammed the baggage cars into the tender of the fast train, and the express car into the baggage and smoker.

In less than five minutes from the moment of the collision, and before any organized effort at rescue could be made, fire from the overturned stoves communicated to the woodwork and the flames leaped high in air, their roar mingling with the cries of anguish of the imprisoned victims. The train men and uninjured passengers were powerless and could do nothing to rescue the sufferers. The express train was in charge of Conductor Tom Haskell, engineer, Lem Eastman, and fireman, Wm. Fredericks, and consisted of engine No. 726, mail, baggage, express car, smoker, coach and two sleepers. The freight train was in charge of Conductor Fletcher, Engineer Keler and Fireman Cullison, and consisted of engine No. 925 and sixteen loaded and a few empty cars.

C. P. Bradley of Washington, D. C. was found hanging from the window of the smoker, but his legs were fast and he could not be removed. There he remained until he was burned to death and his charred remains fell to the ground a black and shapeless mass. He was conscious and gave his address to the bystanders, and also said that he was an officer of the Knights of Labor organization. He gave his watch and other valuables he could get from his pockets to Conductor Fletcher of the freight train. Joseph Postlethwaite, aged 57, and his sons Spencer, aged 18, and Henry, aged 11, were sitting in the same seat in the smoker, and their charred remains were found in the ruins of the cars. With Postlethwaite were his wife, two boys, a seven-year-old girl by a former wife, a little boy of five, and a baby girl of two years. They had sold their farm of 180 acres in Wetzell county, West Virginia, and were moving to Chillicothe, Mo., near where Postlethwaite had a brother living, and where he could make his future home. He had about $500 in cash, a check for $300 and several notes in his possession, and these were burned with his body, leaving the poor widow with three children and no clothing except what she wore, and fifty cents in money. Her husband and the two boys had left her but a few moments before, and gone from the coach to the smoker. Postlethwaite, as a melted medal found in the wreck indicates, was a soldier in the Union ranks in the late war, being a member of Company A, Seventeenth Regiment, West Virginia volunteers, infantry. Wm. Fredericks, fireman of the express, was caught between the tender and the engine and lived for two hours but it was found impossible to effect his release. His mother is a widow, and lives in Washington, D. C. He was a member of the Brotherhood of Firemen, which organization took charge of his remains, which were removed to Chamberlain's undertaking establishment and prepared for burial. His face in death depicted the agony of his sufferings before death came to his relief.

M. H. Parks, whose address could not be learned, was also wedged in the wreck and burned to death, after handing his money, letters and cards to one of the railroad employes. His body was consumed, as were those of several others whose names are not known and perhaps never will be.

When your reporter reached the scene of the holacaust at 1 o'clock to-day the ruins of the baggage car, express, smoker and coach were burning and scores of hands were endeavoring to clear the track here, and there could be seen sheets of blood and pieces of half burned and frozen human flesh, and the workmen were still finding portions of bodies in the burning wreck. All of the mail, express and baggage were burned, including large sums of money.

The scene at the Chamberlain establishment was one calculated to make the stoutest hearts quail. Nine shapeless trunks of human beings were stretched out in a row like so many charred hogs. There were Postlethwaite and his two sons side by side, and seven others none of whom could be recognized, and near them a mass of flesh and bones that may have been parts of bodies of different people. At the depot was found Wm. F. Smith, of Waynesborough, Pa., who was a passenger in the coach next to the sleepers. He was sitting in the front part of the car and when the collision occurred he was thrown violently against the front door of the car but was not injured in the least. He said he did not think there had been a collision but that the train had run off the track. He helped the ladies in the car to gather up their wraps and said when he went back to his seat to get his hat he noticed the smoker in flames and saw an immigrant jump from the car through the roof and a wall of flames. He said no one in the coach was hurt seriously. One man had his hand burned slightly by falling against the stove. After getting out of the car he helped to uncouple the two sleepers and push them down the track so they would not be burned. He then picked up Postlethwaite's little girl, who was wandering around in the snow, and carried her to the depot at Republic. U. S. Price, the baggagemaster, was burned to a crisp. His home is in Wheeling. There were, no doubt, many more who perished in the wreck, as the number of persons who escaped and the remains recovered is not equal to the number reported in the car. The number actually lost may never be known.

SOME OF THE SURVIVORS.

CHICAGO, January 4.—The B. & O. long delayed wrecked train did not arrive at the depot here until 12:30 this morning. One of the first men to be helped off was Harry C. Forester, of Chicago. His head was bandaged and his left arm broken. No sooner had he alighted from the coach than a burly railroader grabbed him. The wounded man was hustled into the baggage room and left there, while the railroad man stormed at the reporters and yelled to Forester not to say anything to them. Forester nearly fainted from exhaustion, but at a late hour was taken away. He escaped almost miraculously from the wreck, being one of the four men who was not killed in the smoking car.

Fred Betzold, a lumber dealer at Rushville, Neb., was another of the four men who escaped from the fatal smoking car. Betzold found his legs fastened between two seats. By the greatest exertions he dragged them out and crawled from the car. A passenger who was unable to free himself seized Betzold and nearly prevented his escape. Betzold could do nothing for the imprisoned man, who sank and was burned to death.

What the Revenue Reformers Will Do.

IDEA OF AN EXTRA SESSION.

Sunset Cox After the Chairmanship of the Ways and Means Committee.

[Special to the Herald by the Associated Press.

NEW YORK, January 4.—A Washington special to the *Post* says: A movement is in progress among Southern men who are in favor of a reduction of the surplus in the form of a combination by which taxes upon fruit, brandy and tobacco and their manufactures shall be abolished, and there is some expectation that Randall will co-operate in this scheme. It is also said by Democrats who ought to know that Morrison, during the holiday recess, has become convinced that it will be expedient for him to move again to consider the revenue bills, and that it is not probable that he will have a larger vote than he had before. The fact that two New England Republicans, nearly every interest of whose constituents is protected, voted for Morrison's motion, it is ascertained, had very considerable effect upon Western Republicans, who, while they have consistently voted with the protectionists for protection's sake, have recently stated that if New England Congressmen can afford to break rank upon this subject there is no reason why Western men, the industries of whose sections are practically without protection, should not also exercise their independent judgment. A prominent New England Congressman who voted against Morrison's resolution says he has discovered that this feeling is quite prevalent in certain sections of the West and he is apprehensive that if Morrison shall again make his motion the result will be different.

It is now known that Randall's plan is a total repeal of the revenue tax, which would involve for the full fiscal year a diminution of receipts by $120,000,000, which is at least $1,000,000 more than the expected surplus of the fiscal year. It appears that a combination has been formed among Southern Democratid Congressmen, which is known among themselves as the Southern Revenue Reform Organization, and which dates its formal existence from the meeting of Congressmen of Virginia, North Carolina South Carolina and Georgia, held here early in December, and of which Mr. Cabel, of Virginia, was made Chairman. Its object is to aid to secure the abolition of the internal revenue tax on tobacco and the manufacture and use of fruit brandy. This would effect a repuction in the revenue of $30,000,000, and would be extremely popular in certain parts of the South. This combination has received considerable accessions during the recess. According to information which has been received by an officer of the Internal Revenue Bureau, and its organization, which is in earnest and is likely to make itself felt in future deliberations relative to the tariff and surplus negotiations are now said to be pending between the leaders of this organization and the Democrats who represent districts in which great whisky distilliug interests are located, for the purpose of ascertaining if some common basis of action cannot be agreed upon.

WASHINGTON.

Indications of an Extra Session of Congress.

WASHINGTON, January 4.—The *Evening Star* says: Though the announcement has not been formally made it is known that Mr. Cox of New York, is to be appointed to fill the vacancy on the Ways and Means Committee caused by Mr. Hewitt's retirement. He is expected to be a very active member of the committee, of which he may be Chairman in the Fiftieth Congress. It is reported thrt he intends to take an aggressive part in trying to bring about a reduction of the revenue this session. In this it is thought he will act as a friend of the administration, as he is closer to the President than are any of the members of the committee. It is said that he has an idea of bringing about a compromise by which enough votes can be had to take up the consideration of the tariff question. He and Mr. Mills, of Texas, will be rival candidates for the Ways and Means Chairmanship in the Fiftieth Congress, and the result will indicate whether it is the intention of the party to adopt a bold and aggressive tariff policy or one more conciliatory. If Mr. Cox fails to show a pretty good hand during the two months he will have been on the Committee this session Mr. Mills will probably be before him in the Fiftieth Congress. If Carlisle is re-elected Speaker, as no one seems to doubt he will be, in the event of an extra session, and there is a pretty general impression now that one may be called, the appointment of a successor to Mr. Morrison is not so remote. The organization of the next House and the formation of its policy may begin very soon after this session ends.

A Murderer Escapes.

ALBUQUERQUE, N. M., January 4.—Great excitement was caused this morning by the announcement that Charles Ross, the murderer of Marshal McGuire and Officer Henry, had broken jail during the night. As soon as the discovery was made an armed posse, led by Sheriff Perea, started to scour the surrounding mountains. Ross made his escape by the aid of duplicate keys. Should he be caught it is generally understood he will not be given another chance to escape.

Quite a Fire.

HANOVER, N. H., January 4.—The Dartmouth hotel and a large number of other buildings were burned this morning. The individual loss is small, but the total loss is $125,000.

Earthquake Shocks.

CHARLESTON, S. C., January 4,—There was a smart shake here this morning and two sharper shocks at Summerville. No injury was done.

NEW YORK, January 4.—The condition of Roach is about the same to-day. He passed a comfortable night.

THE STEWART ESTATE.

An Irish Woman Claiming to be the Sole Heir.

NEW YORK, January 4.—The case of Sarah Branagh against Wm. P. Smith, former coachman of the late A. T. Stewart, has been pending in the United States Circuit Court for months. The plaintiff is Irish and claims to be the sole heir of the Stewart estate. Benjamin Butler is her counsel. It is claimed that Mrs. A. T. Stewart gave a house in East Thirty-fifth street to Smith in return for his signing Stewart's name to the paper which was probated as his will. The plaintiff claims to have a number of letters from Stewart proving her relationship. She brought an action for Smith's ejectment from the Thirty-fifth street house. Her amended complaint September 29th, 1886, shows that Stewart died intestate April 10th, 1876, seized of the premises in question; that the plaintiff is the heir and next of kin of said Stewart; that defendant is in possession of the premises in question, claiming to be the owner thereof adverse to plaintiff. The defendant demurred to the complaint on the ground that it failed to state facts constituting a cause of action. Judge Wallace to-day in his decision sustains the demurrer, but gives plaintiff an opportunity to amend the complaint on the payment of costs.

RENOUNCED THE WORLD.

A Young Lady of Wealth to Enter a Convent.

WASHINGTON, January 4.—The statement is made on good authority that Miss Caldwell, who gave $300,000 to build a proposed Catholic university, will in a short time enter a Baltimore convent to join the sisterhood. The young lady became of age a few days ago, and the event was celebrated here by an elaborate dinner, which was attended by Cardinal Gibbons, Bishop Spaulding, of Peoria, Ill., and many leading society people of the Federal Capital. After dinner Miss Caldwell is said to have announced to Cardinal Gibbons her intention of giving up the world. Such a course on the part of the young lady will probably result in further benefactions to the Catholic university, since it is customary for those who enter religious orders to devote their wealth, if they have any, to some religious purpose. Miss Caldwell is worth over a million dollars.

Morrow on the Chinese Evil.

WASHINGTON, January 4.—Representative Morrow gave the Massachusetts people an idea of the evils of Chinese immigration, on his recent trip to Boston and Waltham, as the guest of the Merchants' Association. Two banquets were given by the association, one in each city, and on both occasions Mr. Morrow made strong anti-Chinese speeches. They were reported in the newspapers and have caused much comment in New England. The Boston *Journal* says editorially of his speech: "One of the most effective speeches at the banquet of the Merchants' Association was that of Representative Morrow on the Chinese question. He put the matter in a new light for the New England people, which is sure to hasten a change of sentiment which has been going on in regard to Chinese immigration for several years in the east."

The Express Robbers Indicted and Sentenced.

ST. LOUIS, January 4.—At 2 o'clock this afternoon the Grand Jury handed in their indictments against the accused express train robbers. That against Wittrock was for robbery in the first degree: that against Haight, for being accessory before the fact; that against Weaver, for being accessory after the fact. The prisoners were immediately arraigned before Judge Normille, pleaded guilty to the charges, and were at once sentenced, Wittrock and Haight to seven years each, and Weaver to five years in the penitentiary. The prisoners will at once be taken to Jefferson City.

Chicago Weather.

CHICAGO, January 4.—The weather has been milder to-day, and snowing lightly. The attendance at the citrus fair was greatly increased, and this evening a number of well-known Chicagoans were present, most all accompanied by ladies. The hall was well filled all the evening. The *Bee's* bulletin board, showing the maximum and minimun temperature for Sacramento each day, excites considerable curiosity. The figures run from fifty to eighty degrees higher than in Chicago.

Respect to Logan's Memory.

WASHINGTON, January 4.—The Senate soon after reassembling adjourned as a mark of respect to the memory of Senator Logan.

In his prayer this morning in the House, the Chaplain referred to the death of Senator Logan in feeling words. After listening to the reading of several communications, the House adjourned in respect to the memory of the dead Senator.

A Train Wrecked.

SPRINGFIELD, Mass., January 4.—The Modoc passenger train on the Boston and Albany road from Albany, which should have arrived here this morning, was badly wrecked at West Springfield. One of the passengers was injured internally, and it is feared he will die. About a dozen others were injured but not seriously.

The Negus Tichborne Indicted.

NEW YORK, January 4.—The United States Grand Jury in Brooklyn has indicted Charles Ogden Ferris, alias Sir Roger Tichborne, for fraudulently obtaining a pension from the government. Should he escape conviction here he will be taken to San Francisco for trial.

Charleston Again Threatened.

CHARLESTON, S. C., January 4.—The earthquake tremors reported this morning produced no alarm nor uneasiness. Reports from the interior of the State are as follows: At Midway there was a lively shake, accompanied by a roaring sound, about seven o'clock, lasting a half minute. At Ellerton, quite a shock about 6 o'clock, making movesables rattle, accompanied by the usual roar. At Oakley, the most pronounced shock since Nov. 9, was at 6:45 o'clock.

Pasadena Items.

[From the Union.]

January 1, 1883, the colony of Pasadena had about 1500 population. January 1, 1886, the city of Pasadena has over 5000. It should be noted that the area of the city is much less than was the colony.

F. A. Bailey, who has shown symptoms of crookedness during a residence here of some months, finally blossomed into a forger a few days ago, and between the rising and setting of the sun he stole away to other climes. The departure of a few more with similar symptoms would not be opposed by our citizens.

A painful accident occurred near the bridge crossing the L. A. & S. G. V. railroad cut at Raymond last Saturday. Mark McGinnis, in haste to take the street cars walked over the embankment and fell to the track below. It was very dark at the time and he was not aware of being so near the embankment. His injuries were severe but not considered dangerous. A railing on both sides of this cut may prevent a much more serious mishap.

A young man, for a short time in the employ of the Pioneer stables, was before Justice Gardner on Thursday charged with theft. Upon examination it was found that he had in his possession a watch and chain, a suit of clothes and revolver that he stole some weeks ago in Los Angeles while working in Wickersham's livery stable. He was held to answer to the charge of grand larceny and sent to the county jail.

The election of a United States Senator for California is one of the importance issues that will engage the attention of the Legislature. The candidates are numerous and all urge claims of fitness for the highly important office. George Hearst is determined to get there if money is a winning power in this case. But there are many who do not want to see this rich man in the dignified and honorable position because it is thought by some, even his own party, that he is wholly unfit for the place. The voter who loves political purity or desires to see a representative in this high office who can honor his great State will regret the election of Hearst. It seems to us that Southern California should be recognized in this choice. I. W. Hellman is becoming a prominent candidate and if the Democratic party has the choice it might go farther and fare worse than to choose him.

The discovery of Red Star Cough Cure, marks a new era in the history of medicine.

Is Your Blood Pure?

For impure blood the best medicine known, SCOVILL'S SARSAPARILLA, OR BLOOD AND LIVER SYRUP, may be implicitly relied on when everything else fails. Take it in the Spring time, especially for the impure secretions of the blood, incident to that season of the year; and take it at all times for Cancer, Scrofula, Liver Complaints, Weakness, Boils, Tumors, Swellings, Skin Diseases, Malaria, and the thousand ills that come from impure blood. To ensure a cheerful disposition take this well-known medicine, which will remove the prime cause and restore the mind to its natural equilibrium.

Can't Make Anything Like it.

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmon's Liver Regulator, promptly and effectively move the liver to action and at the same time aid (instead of weakening) the digestive and assimilative powers of the system.

No other remedy within my knowledge can fill its place. L. M. HINTON, M. D., Washington, Ark.

HAMBURG FIGS.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure for the reason that no one likes to take the medicine that is usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found effective as well as pleasant to the taste of women and children. 25 cents.

Amusements.

Bush-Street Theater.—Mlle. Aimée was welcomed last night by a large and fashionable audience. In the play of "Mam'zelle" she sustains two characters, "Toinette Jacotol," a little French milliner, known as "Mam'zelle" and "Fleur de Lis," the "song-bird of two continents." All that is wanted of any play for this vivacious Frenchwoman is a set of surroundings that will enable the star to play off her stage fascinations. Aimee is distinctly Aimee, and there is no other. Her mastery of the English is more complete than that of any foreign actress we can recall. The slight French accent often gives point to the words and imparts the stage effect of a foreign character played with a true and sustained accent. She possesses, above all other modern comediennes, the faculty of expressing without words. A glance which is hardly perceptible, a smile which flits rather than beams, often convey the idea. As this kind of language is universal, it is something that serves the true artist in every tongue. Aimee sang her old songs with all her old sparkle and spirit. She has not very much voice, but she sings wonderfully well without one. Her "Pretty as a Picture" is the favorite, but other songs were generously encored. She has surrounded herself with a company well adapted to the work they have to do. There will be a matinee to-morrow.—*S. F. Call.*

Found Dead in Bed.

John Nevins was found lifeless yesterday morning in his room at the Pico. He came here a few days ago from Freeport, Ill., where he was local cashier of the Chicago, Milwaukee and St. Paul R. R. The deceased was consumptive and suffering from another emaciating disease and had come to Los Angeles for relief. The body was removed to the undertaking parlors of Orr & Sutch where Coroner Meredith held an inquest on the remains. The verdict of the jury was death from natural causes.

The statement in the *Evening Express* of last night that a bell boy of the Pico House took a quantity of chloral hydrate to the deceased's room on Monday night to produce sleep is flatly and positively contradicted by the proprietor of the hotel and the inquest adduced nothing to indicate that there was any foundation for the statement.

The Brandy Distillery.

The Grape and Wine Growers' Association, which took hold of Rose's distillery on the east side of the river, in September last year, when it was expected that the grape crop would have to sell for a song, did the following work during the season, which commenced October 1st: They crushed 1,246,980 pounds of Muscat and 2,248,960 pounds of Mission grapes, a total of 1747 tons. They made 1313 barrels of brandy averaging 50 gallons each or a total of 65,650 gallons of brandy. This is at the rate of 37½ gallons of brandy to the ton of grapes. The Association is now cleaning up its season's work and will be all through by the end of the week.

Monrovia Street Railway.

Messrs. W. N. Monroe, E. F. Spence, J. D. Bicknell, W. A. Pile and E. W. Little have organized a company for the construction of a street railway in Monrovia. Work will be commenced at once. The line will extend from the L. A. & S. G. V. R. R. depot up Myrtle avenue to the beautiful Monroe villa. Cars will be built of the latest pattern and probably propelled by electricity. Twenty houses are in course of construction or under contract and the hotel is well filled with guests who are delighted with the charming scenery and the sumptuous fare.

Wanted for Embezzlement.

J. B. Stever, [alias John Bernard, is wanted for embezzlement. He was in the employ of J. S. Chadwick as collector, and is charged with having converted, on the 27th of December, the sum of $60, received from Mr. E. Fitch, to his own use. Since then he has not been seen.

CATARRH,

Consumption, Asthma

—AND—

BRONCHITIS

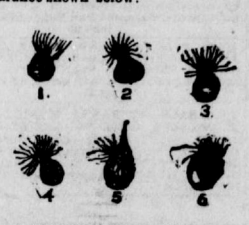

TREATED SPECIALLY AND SUCCESSFULLY BY

W. N. DAVIS, M. D.,

45½ N. SPRING ST. LOS ANGELES, CAL.

NASAL CATARRH

Treated upon a new principle, founded upon the fact that the disease is parasitic in its origin. The parasites can be demonstrated by the microscope and will present the appearance shown below:

(PARASITES MAGNIFIED 490 TIMES.)

One difficulty in the treatment of this disease has been the inability to apply the remedies to the whole seat of inflammation; another is the failure to use the right remedies.

Our treatment consists in using medicines in the form of ointments which are warmed and sprayed through the head and throat, reaching every part of the head that a spray can reach. The remedy remains in the head for some time, passes readily into vapor and reaches cells filled with mucus impossible to be reached by medicine in liquid or powdered form.

The treatment is pleasant and even children will take it readily after the first time, knowing the relief it will give them at once.

Constitutional remedies are employed for the blood, etc. Patients can treat themselves at home when necessary.

COMPOUND OXYGEN.

THE BENEFIT DERIVED FROM INHALATION.

In the *Circle of Sciences* we read this sentence: "The general effect of oxygen in nature is that of a life-giving principle." Ever since the discovery of oxygen by Priestly, has this idea been uppermost in the mind medical, for, since respiration is the process of administering oxygen to the tissues of the body through the agency of the blood (and in the lungs, purifying the life blood) the thought instinctively pops into the mind that if, in cases of disease or imperfect oxygenation, we could help the lungs to more than their usual amount of oxygen, we would be wielding a weapon of vast remedial effectiveness.

Practical experience shows this theory to be correct, and never have we seen a case of Asthma, Bronchitis, Consumption or General Debility that the inhalations, properly administered, failed to relieve more or less. 'Tis true that consumption in the third stage can only be relieved, except in rare instances, but our belief, founded upon experience, is that every case can be cured in the first stage, and the large majority in the second stage, climatic influences being favorable

The home treatment can be sent per express to any address.

LOS ANGELES, Dec. 9, 1886.

DR. W. N. DAVIS—Dear Sir: I wish to testify as to what your catarrh treatment has done for me. I was troubled with catarrh for five or six years or more, and felt as if death would be a relief. My sense of smell was entirely gone, and my hearing and taste were very much affected. Your treatment relieved at once, and in a few weeks entirely cured me and restored my lost senses to their natural condition.

PRISCILLA DUDLEY,
R. Renshaw's office, No. 20, Downey block.

LOS ANGELES, Aug. 6, 1886.

This is to certify that I have been troubled with the catarrh for four years. My breath was offensive, and I used different kinds of medicine and it failed to cure me. I went to Dr. W. N. Davis, and he treated me with the medical inhalation treatment, and I was cured in forty-five days, and am now in perfect health. All those that are troubled with the catarrh had better go and consult Dr. Davis. JOSEPH BAKER,
217 E. First street,

LOS ANGELES, June 13th, 1886.

Dr. W. N. Davis,

DEAR SIR:—I was troubled with a bad form of catarrh of the nose and throat for eight years, and I am thankful to say that your treatment has entirely cured me in a few weeks (eight weeks). My stomach was some affected, causing indigestion, which was relieved at once. I have gained ten pounds since I began treatment and feel better than since I was a child.

MRS. ELLA WILKINSON.
Figueroa st. near Ward.

This is to certify that I am a regularly qualified physician, but not practicing and have always believed catarrh of the chronic nasal variety to be an incurable affliction, but hearing of Dr. W. N. Davis' 'New Treatment' and his success I applied to him for medicine and determined to try it in the case of one of my friends and did so with the most satisfactory results, as improvement was immediate and one prescription effected a cure. The case was of years' standing and a bad type. I can recommend Dr. Davis to those similarly affected.

S. HALEY, M. D.,
Los Angeles, Aug. 1, 1885. Ponet Block.
January 2d, 1886.

S. Haley testifies that the case he treated five months ago is still a cure.

LOS ANGELES, July 4th, 1885.

DR. W. N. DAVIS:

I have been troubled with catarrh of the dry variety for about five years, since three years before I came to California, and in one month I feel that I have been entirely cured by your remedies.

Yours truly,
PETER WIES,
P. O Box 825.

LOS ANGELES, May 25th, 1886.

DR. W. N. DAVIS:

DEAR SIR:—I am happy to inform you that your remedies have cured that terribly obstinate catarrh of the back part of the nostrils and throat, from which I suffered so much. It does not trouble me at all now, and I have only taken your treatment about two months and a half.

Yours, gratefully,
M. S. FISH.
Art Studio 211 S. Bunker Hill Avenue.

LOS ANGELES, Dec. 10th, 1886.

DR. W. N. DAVIS:

I was troubled with moist catarrh of the nose and throat for about two and a half years, there always being a disagreeable feeling above the soft palate, and a disposition to clear the throat. Your treatment entirely cured me in one month.

MRS. ANNIE TOWESEND,
108 Olive street.

LOS ANGELES, October 2, '86.

This is to certify that I was troubled with asthma and bronchitis for one and a half years, and never was entirely free from it at any time till two months ago I put myself under the care of Dr. W. N. Davis and his inhalations gave me relief at once, so that I could attend to my business as well as ever. I now believe that I am entirely cured. H. J. DEVO,
Ventura street and Vernon avenue.

LOS ANGELES, January 27, '86.

This is to certify that I have been troubled for four years with bronchitis, and in six weeks I have been almost entirely cured by Dr. W. N. Davis, and have had no suffocative attacks since I commenced treatment. I can recommend Dr. Davis to any who are troubled with the lungs.

MRS. M. S. STEVENS,
Ninth street, near Pearl.

LOS ANGELES, February 3, '86.

DR. DAVIS:—If it were not for you I am satisfied that I would now be dead with lung disease, which had troubled me for two years, as at the time I began treatment last summer I was so low that I was unable to continue my trip East, after starting, and was obliged to return from Mojave. I wish to testify that I was entirely cured in three months, and found your charges very reasonable. MRS. H. P. MESSEREAU,

The Controller's Report.

State Controller Dunn's biennial report for the fiscal years ending June 30, 1885, and June 30, 1886, has recently been issued from the State printing office at Sacramento. This official proves himself to be a most painstaking and efficient person in the pages of this report. All the several funds of the commonwealth are arranged in perfect order, and their condition made manifest at a glance of the eye. "The Consolidated Perpetual Endowment Fund" of the University of California has bonds on deposit to the amount of $1,363,500. These all draw six or seven per cent. The State owes $2.648,000; of this $250,000 draws seven per cent interest, and the balance draws six per cent. Of the debt only the sum of $339,500 is in private hands. There are $952,500 held in trust for the State University, and the balance is so held for the State School Fund. The report says:

"The cost to the State for conveying convicts to the State prisons, and insane patients to the asylums, forms no inconsiderable item in the annual expenses of the State; and, under the present laws, will require an appropriation of about $115,000 for the ensuing two fiscal years.

"This cost seems unreasonably large. If so, it should be lessened. It is, therefore a subject demanding action at the hand of the Legislature. This class of claims presents a greater difference in cost to the State than any others reaching this office. Instances might be cited of Sheriffs who, in nearly every case, charge for an assistant in conveying an insane person to an asylum, others make it next to an invariable rule to convey but one convict at a time to prison, whilst not a few from certain localities, some of them from remote counties, and wherein staging is necessary, conveying several prisoners at a time, and never charge for an assistant in conveying the one or more insane.

"I am decidedly of the opinion that if the cost of conveying prisoners and the insane were borne by the respective counties, the expense would be very materially lessened. And it does seem that this expense is fully as proper a one against the counties as is that attending their trials and convictions."

There are due to the State taxes from the various railroads $2,347,618.59. Some of this debt is of six years standing.

Under the head of defalcations in State offices the following exhibit is found.

"In the last biennial report from this office I called attention to a large number of defalcations upon the part of State officials—the aggregate at that time discovered being $167,587.77. I also mentioned the criminal actions begun against these officials, as well as the civil actions commenced for the recovery of the money. Among these was the case of T. C. Van Ness, ex-Commissioner of Immigration. An action was brought for the recovery of the money, judgment obtained against him in the Superior Court for $2382.77, which he appealed to the Supreme Court, where it yet rests. Next in order is the case of the ex-Harbor Commissioner at San Francisco, in which case I found the malfeasances to amount to $91,678.95. The Secretary of the Board, John S. Gray, finding that his embezzlements were discovered, fled the country, was brought back on extradition, was tried, convicted and sent to the penitentiary. Recently, in the exercise of your judgment as Chief Executive of the State, Mr. Gray was pardoned. Contemporaneously with the discovery of Mr. Gray's misdeeds, I discovered that the Assistant Secretary, J. J. O'Brien, was a party to the embezzlements. He, too, was arrested, tried, convicted and sentenced to the penitentiary. Under an appeal to the Supreme Court, a new trial was granted, and Mr. O'Brien admitted to bail. Though two years have intervened since the granting of the new hearing, no trial has been had. Delay has followed delay, and the trial seems as far off now as when it was first begun. One of the wharfingers was likewise sent to the penitentiary, and is yet there, whilst two others arrested for complicity in the crimes, and who, there is good reasons for believing, were equally guilty with those already mentioned, had their trials postponed and postponed until all patience was lost. And, in fact, after these repeated delays, one of these parties was tried without a witness from this office being called to testify against him, and was, no wonder, acquitted.

"Soon after the arrests of the Secretaries, actions were begun against the Commissioners and their bondsmen for the recovery of the money stolen. Fully three years have elapsed since these actions were instituted, and they remain to-day undetermined. I am informed by the attorneys prosecuting these cases that they, although ready and anxious to try them, have been met time after time by the attorneys for the defense with all manner of excuses for delay, which have so far been successful.

"Following these cases came that of Grant I. Taggart, ex-Clerk of the Supreme Court, whose shortages amount to $2,998. Civil actions are pending against him and his bondsmen for the recovery of the money. These, like the others already named are still pending and undetermined.

"Next came the case of Drury Locke, ex-Secretary of State, whose shortage amounted to $11,107.50. Actions were commenced against him for recovery of this sum. They, too, are undetermined, and Mr. Locke has interposed against them the statute of limitations. This plea, successful, renders legislation necessary which shall provide that the statute of limitations shall never run against official delinquents.

"After this comes the case of D. M. Burns, late Secretary of State, and his deputy, Thomas H. Reynolds. The amount of these defalcations, so far as could be discovered, was $31,739.59. These parties, on trial for their crimes, were acquitted, notwithstanding the fact that on the trial of Burns, Burns charged Reynolds with the crime, and on the trial of Reynolds he charged it upon Burns. And the jury in each case seemed to believe the defendant, by acquitting both, although Burns admitted that he embezzled the money, to shield the deputy, and Reynolds admitted that he falsified the records for the purpose of shielding Burns in his embezzlements. Civil actions are pending against Burns and his bondsmen for the recovery of the money stolen.

"About two years since the State Board of Examiners discovered that the then Deputy State Treasurer, A. D. January, had appropriated to his own use $30,500 out of the sum of $53,752.77 left for safe keeping in the office of the State Treasurer by various County Treasurers. He was indicted for embezzlement, tried, convicted and sent to the penitentiary, but, pending an appeal to the Supreme Court, is released on bail. Receipts had been given by the State Treasurer to the several County Treasurers for the various sums left with him by them. Then the Legislature passed an act requiring the State Treasurer to receive these receipts as so much cash from the County Treasurers in making their settlements with the State. Hence, as these receipts have ever since been counted as cash in the Treasury, thus showing that much more money than is actually there, I recommend that an act be passed authorizing the Controller to draw his warrant on the General Fund in favor of the State Treasurer for that amount (53,752.77), and that the State Treasurer be directed to burn these receipts in the presence of the State Board of Examiners.

"Finally comes the case of ex-Clerk of the Supreme Court, John W. McCarthy. After having been once found short in his accounts to the extent of $2104.50, which he made good upon demand, he afterwards drew warrants for rent of the Supreme Court buildings, salaries of employés of the Court, and other expenses, amounting to about $12,500. This money was appropriated to meet the expenses of the Supreme Court, under section 47 of the Code of Civil Procedure, from which I quote as follows: 'The moneys so appropriated shall be subject to the order of the Clerk of the Supreme Court, and be by him disbursed on proper vouchers.' Mr. McCarthy, instead of applying these warrants to the payment of the debts due, hypothecated them, pocketed the money and left the country. Subsequently he was indicted, brought back from Honolulu, and is on bail pending trial. The parties who purchased these warrants afterwards presented them for payment at the State Treasury, but payment was refused because the Attorney-General advised the Treasurer that the warrants were not drawn in favor of the proper parties, although they had been approved by the Justices of the Supreme Court. as required by law, and although the Attorney-General himself, as a member of the State Board of Examiners, had approved them in the form in which they reached this office.

"The expense of the proceedings under which Mr. McCarthy was brought back under extradition is a proper one to be borne by the State, and had not the appropriation for such purposes been exhausted, would have been already paid. It is, in my judgment, a matter requiring appropriation at the hands of the Legislature.

"I also recommend that, as Mr. McCarthy, in his official capacity, was the agent of the State, and that as such he defrauded the creditors of the State, appropriations be made to pay these just demands. An action has been brought against Mr. McCarthy and his bondsmen, to recover the money taken.

On unearthing these thefts, and in his endeavors to have the culprits brought to justice and their bondsmen to the scratch, Dunn has made a most excellent record as a faithful official.

In the detailed statements, it appears that while the poll-tax for Los Angeles County for 1885 was only $7,300.65, for 1886 it was $17,770.55. In this respect ours is the second county in the State. The previous year it ranked fifth.

AWAKE to the exigencies of the hour, a carload of S. P. officials arrived here yesterday for the purpose of establishing a full line of branch railroad offices in this city to deal directly with the freight and passenger traffic at this point. Of course there has been a person here for years past to look after these matters, but so important has this become as a terminal point for both freight and passengers, officers are to be appointed with plenipotentiary powers, so to speak, to deal with the public on certain lines independent of the San Francisco office. The facts are simply these: Los Angeles has direct and active railroad opposition which San Francisco has not. To meet the exigencies of this situation, the lower end of the State is to be detached from San Francisco, and business is to be done here on a more liberal basis, than naturally obtains at a point like San Francisco, where the old line holds a monopoly power. The office in the Bay City will deal with shippers at that point in a manner suitable to the circumstances. The officials here will act by shippers at this point in a manner becoming our changed situations. Los Angeles is ahead.

ADELINA PATTI is to favor us with an evening of song. It is definitely settled that thus it is to be. The eighteenth instant is set as the date. On this occasion we shall have an honor heretofore unknown in any city of the size of this. Scalchi, and the great Arditi, as well as other stars of the first magnitude, accompany the *Diva*.

LOS ANGELES people will find comfort in the prospect of the Sweet Wine bill passing, and also one to grant this city an appropriation for a public building. Both are measures which should pass.

GENERAL MILES and staff may be expected in this city in a few days, after which Los Angeles will be in fact the headquarters of the Department of Arizona. Major Kimball is now in the city, and he has rented the old St. Vincent's College building on Sixth street for the army headquarters. This advantage to the city was secured to us largely through the advocacy of the HERALD, which has ever been wide awake and unflagging in its efforts to obtain for the city whatever could properly be obtained, and which tends to her benefit.

STEWART'S election as Senator from the State of Nevada is a thing which was fully expected even before the Legislature of the sage brush State was elected. It was generally understood when the Legislature was elected that they might elect Stewart Senator. The thing which concerns us is that he will be a staunch advocate of silver.

STEPHEN M. WHITE, as Speaker of the State Senate, is most emphatically the proper thing. Mr. White will preside over that body with admirable tact, and with singular impartiality.

NINE YEARS AGO

We opened our doors in the City of Los Angeles. In the coming year of Grace, 1887, it will be just nine years since our little ship was launched upon the sea of commercial life. It was a frail little craft, lightly manned, and carrying an extremely light load. Its total value was not over one thousand dollars. It was buffeted by the storms of opposition, assailed by enemies on every hand. It faced them all. It fought its battle of life, and won. Looking back, down the years of the past, from the proud position it now occupies, it laughs at the puny opposition it encounters and rides safely at anchor in the harbor of Prosperity. It is many years since we first opened our doors in a little store room on South Spring Street. By strictest honesty and pure, honest business methods we have grown to be the largest

Boot and Shoe House

IN SOUTHERN CALIFORNIA,

And in the coming year, 1887, it is our firm determination to make that the red letter year of our business life. We shall leave no stone unturned to gratify our ambition. Prices of Boots and Shoes will not be an obstacle. The bargains we shall pour into the lap of an appreciative public will assist us in our endeavors. We commence January 1st, 1887, to feed the flames of our ambitious desires, and ask the public to remember the size and reputatation of our House as the best guarantee of our ability to carry out our plans.

MYSTERIOUS MURDER.

A Man, Stabbed in the Chest, Dies Before Aid Can Come.

A motley crowd filed into the police office yesterday at 4 P. M. First came an Indian woman about 30 years of age, so stupidly drunk that she did not seem to be cognizant of her surroundings; next a half-breed Mexican woman of nearly the same age, who rent the air with cries of grief, and following them were some policemen and a number of raggamuffins from Los Angeles street and people who had been attracted by the cries of the female. The first woman, whose name is Teresa Pico, was shown a cell into which she shambled quite obediently, though not without support, as she was too inebriated to stand up alone. The other female, named Marguerita Granillo, sat down on a chair and, between sobs, told a HERALD reporter in Spanish that her man, Andres, had been killed by Teresa during a quarrel, an hour before, at No. 28 Los Angeles street, in the corral of Mrs. Cabos' saloon and lodging house. She said that Teresa came into the back room in which she, Marguerita, was living, sat down uninvited, and became angered at the man, Andres Martinez, because he would not give her a glass of wine. Marguerita went out to get a drink of water at the bar, and when she returned Andres staggered up to her and told her that Teresa had stabbed him. He went into the yard, fell down and expired. Marguerita added that she then ran after Teresa who was making for the closet, but that the latter managed to elude her grasp and probably then threw the knife she had used in the privy, as she could not find it afterwards. This story would have appeared plausible, but that Teresa was too drunk to stand and moreover hadn't a spot of blood upon her dress or body, whereas Marguerita had blood on her face and on her clothes, and was evidently much more sober than the other woman. Marguerita was also locked up. The Coroner, being notified, proceeded to Mrs. Cabos' place where Andres was found lying dead in the corral with a knife or dagger thrust just above the left nipple. His clothes were soaked in blood. He was a man about 25 years of age, nearly pure Indian and well known as a criminal, having been in the penitentiary for grand larceny. The body was removed to Orr & Sutch's, where an inquest will be held to-day.

In the evening a reporter interviewed the two women in their cells. Teresa, whom the other woman accuses of the murder, said that she knew nothing about the matter. She declared that she was lying drunk on a broken cot in the corral at the back of the Cabos' place when the landlady came to her and told her to go. That was the first she heard about the stabbing or about any difficulty that occurred in which Andres was mixed. She also denied having had a knife or ever carrying one. Marguerita Granillo, on the contrary, again charged the Indian woman with the crime, and although she denied seeing it committed, insisted that it was done whilst she left the room temporarily, because Andres refused to give Teresa a glass of wine, and that it enraged the latter so that she stabbed him. Just then a dissolute, skulking white man named Wm. Best, came in with a colored man, and was allowed to speak to the woman. He said he lived with Teresa. After the interview was over he was locked up, as he was supposed to have been near the place of the crime, if not within view of the scene, at the time of its occurrence. It was afterwards claimed by this Wm. Best that the stabbing had been done by a man whom he said he would show to the police to-day. If the knife with which the deed was done can be found, there will be no trouble in locating the assassin. From all that could be gathered last night it is more than probable that Marguerita did the stabbing herself, and that the motive was jealousy.

This woman used to live with a man named Juan Lopez, also an habitue of the courts, and it is barely possible that an effort might be made by the crowd now in custody to connect him with the crime. It is understood, however, that his Lopez could establish an alibi. The Cabos' establishment is a very disorderly house, which was formerly closed by the Police Commissioners. It was there that Frank Teal, who is now serving five years in the penitentiary, nearly succeeded in cutting his wife's throat two years ago.

UNFORTUNATE DISTRIBUTION.

Easy Lies the Head That Wears a Crown.

The distribution of prizes awarded at the late citrus fair in the northern citrus belt at Sacramento was a most unfortunate distribution for the winners of the various prizes. The association offered the following prizes, which were contested for by the various orange-growers of the northern citrus belt in good faith. It is well to say the committee on awards very properly barred out those who brought beautiful clusters with the luscious fruit tied to the twigs.

The first prize was a gentleman's saddle which was won by a poor widow lady, who had struggled hard with her little orchard of one tree in one of the sheltered nooks at the foot of St. Helena mountain, near Glenbrook, in Lake county. The second prize was a gilt-edged Bible, that, after a spirited contest was awarded to a monte dealer who after ten years of patient toil had succeeded in raising a crop of five oranges, all on one tree, on a piece of ground particularly adapted to citrus fruits, at the foot of Trinity Mountain, and was carried away triumphantly to the huge disgust of Kimball, of Red Bluff, and Dr. Belton, of Colusa. The third prize, a velocipede, was after a tedious investigation awarded to a one legged man, who had set a thousand trees on the Mooout near Marysville, and succeeded in raising one more orange to the tree than Charley Wilcox at Oroville, or General Bidwell of Chico. The fourth prize was a baby carriage, won easily without a rival by an old bachelor who lived at the Lava Beds in Modoc county, who had budded his trees from some of the choicest citrus fruits at Susanville in Plumas county, early in the spring of 1850.

The fifth prize, a four dollar banjo, which caused a great deal of confusion and dissatisfaction, was finally awarded to a Catholic Priest at Humboldt Bay, when it was claimed by a great many orange growers that a Presbyterian minister at Mokelumne Hill was entitled to it, to say nothing of the claims of a Methodist preacher at Milpitas and a Baptist minister at the Boca Brewery, who had a fine display from the Hawaiian Islands, that had matured in the refrigerating cellars of that place.

The sixth prize, that consisted of an elegant metalic washboard, was tendered to a gentleman of leisure, whose sole occupation is that of watching freeze-out games at Rabbit Creek, and was in debt to the Chinese wash house for two years' washing.

The seventh prize was a Sabbath school teachers' manual, that was neatly won by a faro dealer, who has devoted much time towards the development of the world-renowned Northern Citrus belt.

A PLEASURE TRIP.

The Mayor and Council Try Electricity on the Pico Road.

The excursion tendered by the new Electric Road, to the members of the City Council, members of the press, prominent citizens and distinguished visitors yesterday afternoon, was successful. Among those who went out on the first trip were Mr. David Little, constructor and builder of the residences on the Electric Railway Homestead Tract, Hon. Erastus Wells, several times member of Congress from St. Louis, Mo., builder of the first street railroad in that city; C. Ducommun, Councilmen Teed, Jones, Stearns, Frankenfield, Lambie, Lovell, Mayor Workman, Geo. H. Pike, ex-Councilmen J. P. Moran, James Velsir, Santee, Chas. R. Johnson, Chas. F. Bean, Mrs. Bouton, her mother, Mrs. Mathias Fox, of New York, and Miss Mamie Strong of Oakland, Cal., their guest, and many others.

At 3 o'clock Mayor Workman took the lever in hand, applied the electric current to the machinery of the motor and away went the train, consisting of one motor and one passenger coach, at a speed of twelve miles an hour. The time beyond Pearl street to the terminus and on the return was at the rate of eight miles an hour. Upon the return of this party the cars again filled with ladies and gentlemen in waiting. Among the passengers on the second trip were noticed Geo. H. Bonebrake, President; Col. Howland, General Manager; and Gen. Bouton, Vice-President of the road; Judge Cheney, C. W. Smith, General Manager of the A. T. & S. F. railway system; O. J. Stough, capitalist, lately from Chicago; Col. Wand, formerly Manager of the Market street cable road in San Francisco, and of the Temple street cable road of this city.

Mr. A. H. Hayward, formerly of the Baltimore electric road, who has superintended the construction of the electrical department of this road, was also present, as was Captain J. Warren, electrician of the electric light system of this city from its inception, to the success of which he has been largely instrumental.

Mrs. P. Bronsdon, formerly superintendent of construction on Temple and Second street cable roads in this city, the Market, Geary and California street cable roads in San Francisco, who was a passenger, in a measure relieved the officers of the new road of the burden of questions rained upon them regarding the working of the motors. He is also superintending the construction of a switch at the main street terminus. The entire party, including the Mayor and the members of the Council felt pleased with the new road and its future.

Important Railway Action.

The Southern Pacific Railway Company has leased the fine store on the corner of Commercial and Main streets, formerly occupied by Siegel the Hatter, and rooms are being fitted up for the great railway bureau that is being established in this city.

Yesterday Mr. T. H. Goodman, General passenger agent of that company; J. C. Stubbs, general freight agent, and C. F. Smurr, first assistant general passenger agent, formerly a popular resident of this city, arrived in this city in a special car to arrange the new bureau of which Mr. Smurr is to be the chief.

This movement is very significant and shows the recognized importance of Los Angeles by the directory of the S. P. company. As this city is to be the railroad center of the State, with a large number of competing railways, it is as important to have general offices here as in San Francisco, and these general offices have now come and come to stay. It is needless to say that the officers will have plenty of business on their hands from the word go.

The railroad business of Los Angeles is colossal in magnitude, and taxes the skilled experience of Gen. E. E. Hewitt, the Division Superintendent, and his able assistant, Mr. J. A. Muir, of the S. P. Company, and also the constant attention of the veterans of the California Southern, Messrs. H. B. Wilkins and Williamson Dunn, and the undivided energy of President J. F. Crank and Manager S. P. Jewett, of the L. A. & S. G. V. R. R.

New Pullman Cars.

As illustrating the growing importance of this point in railroad circles may be mentioned a new style of Pullman palace cars, three of which have arrived here within a few days. The inside finish is of hard woods, the grain of which is allowed to show, it being merely varnished. This is inlaid with mosaics of several colored woods and imitation of mother of pearl. The upholstering is of plush, the seats being bronze, that in the bridal chamber blue, and in the smoking-room green. The bridal chambers are fitted with colored marble washstands, etc., fine plate-glass mirrors, and all imaginable comforts. There is a buffet, with fine porcelain and silver work. The backs of the seats all through the cars are very high, and make the most comfortable place to recline. There are fine mirrors at each end of these cars, and every appointment is of the most costly and artistic sort. At one end of each car is a heater, a baseburner, which warms the entire area by means of hot-air pipes. Splendid as the Pullman cars have been, for beauty and comfort these cap the climax. The names of the three are Santa Barbara, San Mateo and San Rafael, which point plainly enough to their California uses. They were built at the town of Pullman.

Public Installation of Pacific Legion No. 16 S. R., A. O. U. W.

Deputy and Past Grand Commander, Al. Cobler, assisted by Deputy J. D. Vogan, of Los Angeles, Legion 7, J. A. Philbing of California No. 1, S. Gray and J. D. Robertson of Montezuma Legion No. 1, New Mexico, installed the following officers of Pacific Legion No. 16, for the ensuing term, last night:

Post Commander, C. F. Rutan; Commander, A. W. Barrett; Vice Commander, D. E. Barclay; Lieutenant Commander, J. K. Oliver; Recorder, E. P. Sutherland; Recording Treasurer, H. J. Stewart; Treasurer, F. B. Fanning; Marshal, P. W. Deckman; Standard Bearer, W. M. Green; Senior Workman, W. S. Schall; Junior Workman, L. A. Major: Guard of Legion, Jean Sherren; Trustee, C. F. Rutan; Medical Examiner, A. E. Wheeler.

After the installation a fine spread was made, and the evening closed with one of the pleasantest social parties of the season.

Blazing Oil.

An alarm of fire was turned in yesterday morning at 5.30 from box 17. The engine and hose cart of Co. 2 and the Hook and Ladder Co. responded, but were not needed. The fire occured in the stable of the Hellman street car company. An employe tried to obtain oil from a barrel to grease car wheels and took a lighted candle with him. The oil ignited and the barrel and its contents burned. The damage was insignificant.

EMMA ABBOTT.

"Mignon" at Grand Last Night a Great Success.

Ambroise Thomas' romantic and brilliantly tuneful opera, "Mignon," held the boards at the Grand last night. The presentation by Emma Abbott and her company was in all respects worthy the character of the music. The setting was very appropriate, and the costuming was splendid. With such a cast as Emma Abbott in the title *role*, Lizzie Annandale as "Frederick," Ida Caroni as "Felina," Michelena, the rich lyric tenor, as "Meister," Allen as "Laertes," and Broderick as "Lotarnio," it is no wonder that the house, packed as it was with one of the most cultivated and elegant audiences that ever sat within the walls of the Grand, should be the scene of an enthusiasm which knew no bounds.

Emma Abbott surpassed herself in her rendering of the "Mignon." Her singing of the "Mignon" song in the first act was rapturously excellent. So sweet a thing had not been heard here before. Two years ago Miss Abbott's singing and acting of the "Mignon" was greatly admired, but she has immeasurably improved since that date.

The Company will give two productions of opera to-day; a matinee this afternoon of Bellini's brilliant opera "La Somnambula," and this evening Balfe's popular opera "The Bohemian Girl," which will be presented with the following excellent cast:

Arline	Emma Abbott
Gypsy Queen	Lizzie Annandale
Linda	Marie Hindle
Thaddeus	Señor Michelena
Count Arnheim	Wm. Pruette
Devilshoof	Walter Allen
Florestan	Robt. Beaumont

The matinee to-day will be given with the following prices: Parquette and parquette circle reserved seats, $1; balcony reserved, 50c. The brilliant music, particularly in the great sleep-walking scene, will prove a splendid attraction this afternoon.

"The Bohemian Girl" is one of the best known of all operas. Its popular melodies, "I Dreamt I Dwelt in Marble Halls," "The Heart Bowed Down," "Then You'll Remember Me" and "The Fair Land of Poland," are household favorites and will be entrancingly sung by Emma Abbott and her artists. This opera is one of the most popular of the Abbott company's whole *repertoire*, and all the leading *roles* will be ably sustained and the stage setting and costumes appropriate and elegant.

The sale of seats for Thursday, the "Faust" night, is immense.

The operas for Friday night, Saturday matinee and Saturday night, are respectively "Crispino and the Fairy," the "Carnival of Venice," and "Linda of Chamouni." They are among the brightest gems of song extant. For example, in the "Carnival," the marching of the ladies of the company, dressed as soldiers and each carrying a musket, will be a brilliant scene. The music in all these operas is most sparkling and sweet.

The Abbott season is a great success, as it most certainly deserves to be. The house will be packed at each performance.

The house programme is back in the old hands again, is enlarged, has changed its name to *Figaro*, and is printed on fine tinted book paper.

Good Work in the Courts.

Justice Taney yesterday had up a number of tramps and vagabonds before him to whom he meted out justice in the shape of imprisonment ranging from ten days to forty. With Judge Austin going for petty larcenists with all his might, and Mayor Workman working the chaingang racket for all it is worth, it will be a wonder if Los Angeles is not delivered of all the petty thieves, workers of the growler, tramps and bums, within a very short time.

Charge Dismissed.

George Reese, the 16 year-old negro who cut Juan Alvarado in the head three times and stabbed him in the armpit on New Year's day, on Los Angeles street, was yesterday discharged from custody. Alvarado would not testify against the negro, and there was not sufficient outside evidence to sustain a commitment.

A Bold Thief.

A man last night climbed over the partition, dividing the Fountain saloon and the barber shop adjoining, and stole a lot of razors and whatever change there may have been in the drawer. He then jumped into the saloon and ran out by the backway, climbed over the brickwall and escaped.

City Board of Education.

The new Board of Education organized yesterday by the appointment of Dr. Joseph Kurtz as president and F. S. Graham secretary. The appointment of committees was postponed until next meeting. No further business of importance was transacted.

RUPTURE!!

TO THOSE WHO MAY DOUBT THAT Rupture is curable, we respectfully call attention to the following letters, which have just been received at our St. Louis office, and would state that we have received hundreds of just such letters since our celebrated "Dr. Pierce's Patent Magnetic Elastic Truss" has been before this public:

SALEM, DENT COUNTY, Mo., July 10, 1886.—Messrs. Pierce & Son, St. Louis, Mo.—Sirs: I feel under obligations to acknowledge my complete cure by the Magnetic Electric Truss bought from you in September. Without the slightest confidence of hope of a cure, I was very well contented with the effects of the Truss after I had succeeded in adjusting it. I was not able to wear it without a pad under it, however, but never experienced the slightest inconvenience since then. I have continually performed the hardest labor incidental to farming, and have been practically unconscious of either Truss or rupture. I cannot positively name the exact date when the cure was completed, but have not been aware of the rupture for more than two weeks. I have since then lifted my best without wearing the Truss; and have tested the cure otherwise, but intend to wear the Truss some time yet as a safeguard. You are at liberty to make use of my statements at pleasure, and may they be an inducement to many to seek and find relief through your incomparable Truss. Gratefully yours,

CHARLES MARTEL.

SALEM (Mo.), October 7, 1886.—Drs. Pierce & Son—Sirs: The above testimonial was written when dated, but I held it back to make assurance doubly sure. Yours respectfully,

CHARLES MARTEL.

FINANCE AND TRADE.

Government Bonds and Railway Shares.

NEW YORK, January 3.—Government bonds dull and steady.

The bears had another field day to-day attacking prices of stocks all round, with marked success. The opening was decidedly weak and declines from last evening's figures ranging up to 3@4. Richmond and West Point was a conspicuous exception to the general rules, opening at ⅝. A period of dullness and comparative firmness ensued, but the attack upon Coalers and certain Vanderbilts carried the entire market down again. The decline being checked in the last hour, prices were generally those opening, while the lowest were recorded in the early part of the last hour.

A Safeguard.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other anodyne expectorant so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

The Only Way to Conquer Dyspepsia.

It is perfectly preposterous to introduce pepsin and other artificial solvents into the stomach in the expectation that they will assist digestion by acting on the food itself; they will not. Nor is it possible thus to overcome dyspepsia. The only way to conquer that disorder and prevent the numerous diseases and disabilities which it assuredly provokes, is to renew the activity of gastric action by strengthening the stomach. Hostetter's Stomach Bitters eradicates the most inveterate forms of indigestion by restoring vitality to the alimentary organs, and those which are tributary to them. The liver, the bowels, the kidneys and the nerves, no less than the stomach, experience the invigorative effects of that standard tonic, which possesses alterative properties that greatly enhance its beneficial influence and give a permanence to its effects which they would not otherwise possess.

Who Said the Pico Electric Railway

Would "never run?" You can't find the fellow now. It is here and to "stay," and is a "grand success." So said the immense crowd of people who gathered at Main and Pico street on Sunday to "see it go," and the effect it will have on lots along the line will be a surprise to the most sanguine. A good judge of real estate said this morning there are no lots around the city that will increase in value like those of the Pico Heights tract of the Electric Railway Homestead Association. They were sold too cheap in the first place and now lots a long way beyond with no street car, and comparatively nothing by way of improvements are being sold at as high a price and even then purchasers are in little danger of "losing."

MISCELLANEOUS.

PEOPLE'S STORE

THE PEOPLE'S STORE IS THE LARGEST RETAIL ESTABLISHMENT south of San Francisco. We do a strictly cash business, both in buying and selling. Our idea of business is that the capital invested should bear a just rate of interest, and our labor given in the care and handling of the business properly compensated. Our business has assumed that proportion that we can use quantity enough to buy from the manufacturer. Smaller concerns that cannot use cases of a kind must buy from a jobber. The difference between the manufacturer's and the jobber's price is at least 15%, and from that up to 33⅓. This difference saved to us, and the cash discount of from 2 to 7 per cent., is all the profit we want to make. Some time ago we bought from a manufacturer a line of woolen dress goods at 31c. that we retailed here in Los Angeles for 35c. When we were all sold out and desired to duplicate, the manufacturer informed us that he had closed out the entire line to E. S. Jaffrey & Co., one of the largest jobbing houses in New York. Anxious to continue the sale of these goods, we bought 18 packages of them at a close price, and paid 36c. for them—an advance of 20% over what we paid first hands for them. We cite this incident to show the hidden cause of the People's Store's popularity as a cheap house to trade with. Anybody else in this market that had happened to purchase these goods at 36c. and run against our 35c. pile, would think that we were losing money, selling goods at 1c. per yard less than they cost.

The People's Store

Doesn't lose money. It is constantly making money, slowly but surely; and the coming year will show you how, slowly but surely, we will double the large trade we now enjoy. The more business we do the more goods we sell and the cheaper we sell them. In our new store of 60 feet, the expense of running will only be one-third more, while we cover nearly twice as much ground. We had seriously contemplated opening branch stores in San Diego and elsewhere, for the sole purpose of running off a hundred thousand dollars' worth more merchandise, to enable us to purchase large quantities of goods to still greater advantage; but, believing that in unity there is strength, and enlarging our business at home and devoting our united efforts and attention, we could accomplish that end here, we are in a position to sell the major part of our goods at the price paid for them by smaller dealers, and at the utmost a trifle more. We shall be entirely without competition. We intend to sell goods cheaper than we ever have heretofore, and when it happens a year hence that we give you an outline of our business intentions, enlargement, etc., our words will be verified. The public will say that

The People's Store of all Stores is the Place to Trade at.

We are not picayunish, small or arbitrary in our dealings. We are here to please and give satisfaction. If perchance you have purchased something that is not to your entire satisfaction, we are always willing to exchange, to please and, if in our power, satisfy. We do not cry, a bargain is a bargain. We want a customer, not for a day, but one for all time during our commercial existence.

We enjoy all the advantages of prominent and successful merchants—money and unlimited credit. We understand our business thoroughly; are contented with a less ratio of profit than any other house in town, and have the greatest facilities. How then can it be otherwise than foremost in success.

In our Dress Goods Department

We include Silks, Satins, Velvets, Plushes and Dress Goods. We carry beyond question the largest and best line suited to the generality of persons. It is the place to get the most goods for the least money.

Our Domestic Department

Is evidently the most popular in town. It is constantly crowded, and our efforts will be directed towards keeping it so. We have splendid values in Scotch and Irish linens, napkins, towels, linen sheeting, brought direct from the manufacturers in Belfast and Glasgow. Our comforter and blanket stock has met with a hearty endorsement.

Boys' Clothing.

We needn't say much of it. Our business in this department is remarkable. With this department we embrace: Jerseys, shawls, gossamers and parasols.

MEN AND BOYS' HATS AND CAPS.
LADIES', CHILDREN AND BOYS' BOOTS AND SHOES.
GLOVES AND PERFUMERY.
MILLINERY.
BUTTONS AND THREAD.
NOTIONS, FANCY GOODS, AND SMALL WARES.
LADIES' MERINO AND MUSLIN UNDERWEAR.
CORSETS AND HOOPSKIRTS.
HOSIERY LACES, AND EMBROIDERIES.

All are distinct and separate departments of our business, in all of which you will find special bargains every day.

You can buy a bill of goods throughout our stores and in the whole you'll save at least 25 per cent. more than any where you can purchase.

People Patronize the Man who Sells the Cheapest,

Quality and quantity considered. The public are the judges, we claim their patronage on that score. If we do not come up to the requirements we err in our self opinion and forfeit their claim.

Medicated Inhalations used in all diseases of the Head, Throat and Chest.

CONSUMPTION.

The following are prominent symptoms in the first stage, and wherever any of them exist a thorough examination should always be made, with a view to arrest the disease if shown to exist: There is usually a sense of weariness upon a little exercise, a disposition to remain passive a idle, despondency, often from no apparent cause, a peculiar sensitiveness to the effect of cold, and a breathlessness upon moving quickly or decending a hill or stairs, a slight, hacking cough, with or without expectoration, excitability upon slight occasions flying pains through the chest or back, or under the shoulder blades. The symptoms are most noticeable toward or during the night; slight fevor in the afternoon; cold feet and hands, or in many cases blue lividity of the lips and roots of the finger nails.

Constitutional or tubercular consumption is a common form of lung disease. The progress is slow, but if left to itself no less sure. It usually begins with a dry cough. At first these tuberoules are exceedingly minute, the patient not at all suspecting their presence. Gradually they develop into more active disease, and then follows the train of symptoms which leaves no doubt as to its true character. Sometimes spitting of blood or slight streaks in the mucus is the first indication of tubercular deposit or it may be a chilly sensation in the back, followed by more or less heat in the palms of the hands, or an afternoon flush on the the cheeks. The slow and gradual inroads of this form of consumption leave the stomach and appetite undisturbed for a considerable time. Finally, however, hectic fever and night sweats, supervene, preceded by diarrhoea. Then the loss of flesh and strength becomes rapid, the chest contracts, the features sharpen, the eye attains an unusual brilliancy, and the patient begins to realize that he is in the last stage of confirmed constitutional consumption.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success. The very best reference from those already cured.

CONSULTATION FREE.

Those who desire to consult with me in regard to their cases had better call at the office for consultation and examination, but if impossible to do so can write for a copy of my Medical Treatise, containing a list of questions. Address,
